Popcorn Machine Instructions

Quantities Used: Kernels – 1 Cup
 Oil – Half of a Stick
 Salt – 1 Tablespoon

How to Pop Corn:

- 1) Plug Machine In
- 2) Plug Kettle In
- 3) Turn on Light Switch
- 4) Add Oil, Salt, and Kernels
- 5) Turn on Stir Switch
- 6) Turn on Heat Switch

Listen for popping to stop and *immediately turn OFF Heat and Stir Switches*. Dump popcorn, and then begin again at step # 4.

Please remember to clean popcorn machine thoroughly after event is over. Salt and oils not cleaned out will cause machine to corrode. The machine can be cleaned with any household degreaser. Please do not put kettle in dishwasher or submerge in water. Wash by hand only. Don't forget to clean out in and under the old maid tray!

If unit is not cleaned properly, you will be assessed a \$50.00 cleaning fee.
